

## **PlaySmart – Making odds less odd**

### **On Screen Text:**

PlaySmart Presents:  
MAKING ODDS LESS ODD

**Video:** Shows a PlaySmart dealer talking to players at a gaming table while she shows them different types of dice.

### **PlaySmart Dealer speaks:**

*So if you were to explain odds to me, what would you say?*

### **On Screen Text:**

Odds are hard to imagine  
So we used something familiar to help

### **PlaySmart Dealer speaks:**

*So we have a 6-sided die here, and this represents your 1 in 6 chance of winning.*

### **On Screen Text:**

But the higher the odds get  
The harder they are to imagine  
1 in 122 (shows the number quickly growing from '1' to '122')

### **On Screen Text:**

So we made bigger dice

### **PlaySmart Dealer speaks:**

*This is your 1 in 24 chance of winning.*

### **On Screen Text:**

Then bigger still

### **PlaySmart Dealer speaks:**

*This is a 1 in 96 chance of winning.*

### **On Screen Text:**

And bigger still

**PlaySmart Dealer speaks:**

*1 in 122 chance of winning.*

**On Screen Text:**

Because when people understand the odds

Playing is more fun

**PlaySmart Dealer speaks:**

*See if your number comes up.  
There you go!*
